

SABB DIESEL

RELIABLE MARINE ENGINES

Manufactured in Italy, SABB DIESEL outboard motors are designed for reliability and performance. They are available in a range of sizes from 20 to 100 HP, making them suitable for a wide range of marine applications. The engines are built with high-quality materials and components, ensuring long life and low maintenance. They are also equipped with advanced features such as electronic fuel injection and digital speed control, providing optimal performance and fuel efficiency. SABB DIESEL outboard motors are a reliable choice for anyone looking for a powerful and durable marine engine.

20-100 HP
4 Cylinders
6000

Technical features

Highly efficient flexible construction system. Flexible design and control of high-speed motion. Multi-axis motion and control system. Easy installation and use. Integral safety-control technology with high throughput. Compact construction and easy integration into manufacturing systems. Proven design for the 2nd and 3rd axis motion control. Full size.

Automatic loading, unloading of multi-head and automatic loading, unloading and

automatic control technology. High speed motion control system. Multi-axis motion and control system.

High speed motion control system. Multi-axis motion and control system. Proven design for the 2nd and 3rd axis motion control. Full size.

The main body is a flexible design. Multi-head and automatic loading, unloading and
