NAVY

WORLD LEADERS
In Marine Propulsion

ONE ENGINE FOR ALL OF THEM

Type	Power output (kW/HP)	Weight (kg/lbs)
Competition propulsion	1200/1,650/200	600/1300
Medium speed in a boat	1200/1,650	600
Deepwell propulsion	1200/1,650	600
Cruise and maneuvering	120/1,650	600
12 speed in a boat	1,200/1,650	600
Deepwell propulsion	120/1,650	600
Medium speed in a boat	120/1,650	600
12 speed in a boat	1,200/1,650	600
Cruise and maneuvering	120/1,650	600
Deepwell propulsion	120/1,650	600
Medium speed in a boat	120/1,650	600
12 speed in a boat	1,200/1,650	600
Cruise and maneuvering	120/1,650	600

CURVE CHARACTERISTICS MOTORIE NAVY

With a proven 1200 kW/1650 HP engine, the Motorie Navy is a proven, reliable, efficient, and compact power solution for all your propulsion needs.

DESIGN FEATURES & BENEFITS

The Motorie Navy engine is a proven, reliable, efficient, and compact power solution for all your propulsion needs. It features a proven 1200 kW/1650 HP engine, a proven, reliable, efficient, and compact power solution for all your propulsion needs. It features a proven 1200 kW/1650 HP engine, a proven, reliable, efficient, and compact power solution for all your propulsion needs.

ADVANTAGES

The Motorie Navy engine is a proven, reliable, efficient, and compact power solution for all your propulsion needs. It features a proven 1200 kW/1650 HP engine, a proven, reliable, efficient, and compact power solution for all your propulsion needs.

DESIGN FEATURES & BENEFITS
